Center for Unconventional Resources Energy (CURE) – Inha University

Every single time, our species chews its way through more than million terajoules of energy. That's roughly equivalent if we would use if all 7.5 billion of us boiled 50 kettles of water an hour around the clock. With the global population swelling and industrialization on the rise in developing countries, the hunger of energy has reached unremarkable level. More than half of the energy needs comes from fossil energy which is extracted deep within the earth crust.

Since it was first commercially drilled in the middle of 18th century, we already sucked up hundred million tones of oil to drive our cars, fuel our power station, and heat our homes. That number increases every year. Oil and gas resources are divided by its how to produce, conventional resources, which have small volumes and are easy to produce, and unconventional resources, which have large volumes and are difficult to produce.

Hello there! I am Afrikeksa Bop Duana. Please, allow me to introduce what we do at Center for Unconventional Resources Energy (CURE). Petroleum engineering is our

major in Energy Resources Engineering Department. Unlike to other petroleum engineering department, we are focusing on unconventional energy resources. To produce oil and gas from unconventional energy resources, it is needed some special techniques because of its difference with conventional ones. To study unconventional resources energy, we also need a basic concept of petroleum engineering itself.

There are 2 major unconventional energy resources: oil sands or extra heavy oil deposits, which is a high-viscous oil that needs heat to flow, and shale gas or shale oil, which has low permeability that needs fractured rock to flow. These 2 resources can be found mostly in Canada, North America, Venezuela, and Argentina. Besides unconventional energy resources, our lab also works with carbon capture storage, which is a new technology that injects carbon dioxide back to earth crust as a storage for improving oil production. This happens because of the high carbon dioxide emission that harmful for the environment. This technology has been done also in Korea, at Pohang basin.

Our lab is leaded by Professor Hyundon Shin, graduated from Seoul National University with a BSc and MSc degree in Applied Geology, and received his PhD degree at University of Alberta, Canada. Right now, we are 1 PhD student, 1 master student, and 2 integrated PhD students in our offices (2N263A and hi-tech building), working on diverse aspect of unconventional energy resources (oil sands and shale gas) and carbon capture storage technology.

Resources Triangle

RESEARCH AREA

Reservoir characteristics
Production data analysis
Recovery enhancement technology
Unconventional energy resources (oil sands and shale gas)
Carbon capture storage technology

OIL SAND RESERVOIR

- Steam-Assisted Gravity Drainage (SAGD)
- Steam flooding
- Cyclic steam stimulation (CSS)
- Vapor Extraction (VAPEX)
- In-Situ Combustion (ISC)

SHALE GAS RESERVOIR

- Hydraulic fracturing
- Horizontal drilling technology
- Gas decline curve analysis

CARBON CAPTURE STORAGE TECHNOLOGY

- Carbon Capture Storage (CCS)
- Carbon Capture Utilization and Storage (CCUS)
- CO₂ Enhance Oil Recovery (CO₂ EOR)

INHA UNIVERSITY CHINESE STUDENTS ASSOCIATION

INHA UNIVERSITY CHINESE STUDENTS ASSOCIATION (IUCSA) was approved by the Education Office of the Embassy of the People's Republic of China in the Republic of Korea. It is a social organization voluntarily established by Chinese students at Inha University in Korea.

On December 21, 2019, IUCSA held the 4th Inha University "We Are Together" Ceremony for Chinese scholars at Inha University. That day the students participated on acting, photography, lighting division, field control, props group, make-up and others. After nearly two months of hard preparation and rehearsal, the Chinese students' evening party, planned and prepared by the association members themselves, finally was presented.

Moving songs, great dancing performances, that moment was like a paradise for international students who mutually cherished and experienced an unforgettable night. Singing was an essential part of the party. Students prepared solo, duet, and rap performances this year. After the dancing and singing, there was a whole new show: a Talk Show brought by IUCSA President.

You can contact IUCSA through the following channels:

- Sina Weibo – Inha University Chinese Students Association (仁荷大学学人学者联谊会).
- WeChat Official Accounts – IUCSA (仁荷学联).
- Reproduced in: WeChat Official Accounts-IUCSA (仁荷学联)

DISCOVERY COUNTRY

The Pearl of the Orient Seas

By: Lloyds Corazon Guadilla

The Philippines is often called the 'Pearl of the Orient Seas', known for its natural beauty and rich biodiversity. Having more than 7,641 islands, you will find amazing beaches, scenic mountains, rainforests, heritage villages, and more hidden paradise for you to explore.

The Philippines is the most jolliest country among Asia, because even it's the center of many typhoons and disasters, we were never shaken! Depressed? Yes, but temporary because most of us are God fearing people. In fact, it is the only country that consist of more than 80% Christians. Filipinos smile when they are happy and they will smile even when they are sad due to calamities & hardships. We have the saying "After the rain, there will be rainbows", if you're sad for sure you'll be able to smile again. If you will visit this country, I'm sure you will be able to smile too

Smile: see miracles in life everyday

Filipinos are very kind and welcoming especially to foreigners. You won't have a problem with communication either since most Filipinos speak English. Not only that, we have a vast array of food. Wherein: "Only in the Philippines you can find people who have Spanish names, speaks English, celebrate Austronesian culture and cook Chinese, Indian, Korean and etc" is an accurate description of the country. Being in an Asian continent, Filipinos can't also eat without rice. In

fact, Philippines is one of the top 10 producers of rice in the world and also the world's second largest producer of coconuts. If you love rice and coconut delicacies like "Buko pies", a MUST try!, I'm sure you won't regret visiting.

Philippine Flag

The National Flag of the Philippines consists on the colors of royalty. Blue symbolizes peace, truth, & justice; crimson red stands for patriotism & valor; while the white-equilateral triangle means liberty, equality & fraternity. In the center of the triangle there is a golden-yellow sun with eight primary rays, each of which represents a Philippine province that were significant during the Philippine Revolution: Manila, Bulacan, Cavite, Pampanga, Tarlac, Laguna, Batangas and Nueva Ecija. At each vertex of the triangle there is a golden-yellow star, each of which represents the country's three main island groups namely Luzon, Visayas and Mindanao. A unique feature of this flag is that can be reversed indicating a state of war when it is displayed with the red side on top.

Filipinas

The Philippines is not only proud of its natural scenic views but we are also pride of Filipina beauties. Spain (1565–1898) and the United States (1898–1946), colonized the country and have been the most significant influences on the Philippine culture and love for beauty pageants. Many women from all over the Philippines train every year with one common goal: becoming a queen and make it to the national finals, and having the chance to represent the country in international competitions.

My Hometown

Baguio City is better known as the "Summer Capital of the Philippines" since its lying at 1,540 m (5,050 ft) in the Cordilleras. Its climate is quite cooler than the rest of Luzon, making this as an escape for many to get away from the heat. The temperature ranges from 14–26 °C in 2019. The city is also called "City of Pines" because it's famous for its abundant tropical pine trees, which serves as one of the tourist attractions. The city is best visited during the dry season, between November and April, when rainfall is at its lowest. You can easily visit other places in Benguet because Baguio City is the center of the transportation in the region.

DISCOVERY COUNTRY

AMAZING

Thailand

How Well Do You Know Thailand?

Sawasdee Kha everyone, สวัสดี pronounced [sà.wàt.di], is a Thai greeting word together with a slight bow and the palms pressed together in a prayer-like fashion. This verbal greeting is followed by "kha" or "krap" when spoken by female and male person, respectively.

Thailand, officially the Kingdom of Thailand is a country in center of Southeast Asia with both extensive Pacific coasts (Gulf of Thailand) and Indian Ocean (Andaman Sea). Thailand shares borders with Myanmar to northwest, Laos to the northeast, Cambodia to the southeast, and Malaysia to the south. Thailand occupies area 514,000 sq. with over 64.1 million populations. Thai is the sole official and national language. It is a tonal language with different dialect. Its script was created in 1283 by King Ramkhamhaeng the Great of the Sukhothai Kingdom. "Thai" is also referring to call Thailand citizens; in Thai language it means "human being". Thailand- the land of smiles, this is a virtual

guide to "Muang Thai" - often translated as the "Land of Free". Thai people agree with this meaning since Siam, former name of Thailand, was never brought under European colonial domination. Independence Siam was ruled by an absolutely monarchy until revolution in 1932, Siam became a constitutional monarchy and changed its official name to "Thailand". Bangkok is capital of Thailand, known as "Krung Thep" among Thai people. Thai currency is Baht, 1 dollar about 29~30 baht, with this price you can buy a meal.

Thailand - Tropical Paradise on Earth

Thailand is one of the world's top tourist destination. Author highly recommend visiting there once in your life. Friendly and food-obsessed, hedonistic, and historic, cultured, and curious, Thailand tempts visitors with a smile as golden as the country's glittering temples and tropical beaches. Bangkok, the city itself is a true tourist paradise, proved by the flowing number of travelers. A Thailand vacation can mean several things, it can mean taking to the bustling streets of Bangkok, where you can enjoy with Thai delicious street food and tropical fruits, visiting the most stunning temples and grand palace, getting a Thai massage, taking a Thai cuisine class, shopping either the local markets (e.g., Chatuchak Weekend Market, Talad Rot Fai Srinakarin Night Market, Floating markets) or shopping luxury malls (Iconsiam, Siam paragon, Terminal 21 Asoke, Central world, Central Embassy and etc.,), sailing down the Chao Phraya River, spend nightlife in Khaosan road or just interacting with incredibly friendly people.

If you have enough time, visit the northern of Thailand is also optional. There are many attraction spot cities in Northern of Thailand, Chiangmai is the most popular for tourist. Countless activities in Northern are waiting you to explore for example, visiting elephant sanctuaries, hiking to waterfalls in the jungle, temple touring (e.g., Wat Phra That Doi Suthep in, White Temple), visiting handicraft village, enjoy with special northern dishes such as Khao Soi or Khanom jeen nam ngiao and making experience with tea plantation. Apart from Northern going down to Southern, Thailand has undoubtedly among the best beach destinations in the world. The definition is "tropical paradise", their soft white sands, clear and calm seas, scuba diving, nodding palms and cooling sea breezes, are on almost everyone's bucket lists. In addition, there is something for every interest and every price bracket, from beach front backpacker bungalows to some of the best luxury hotels in the world. Thailand travel can include hitting a Full Moon Party also. Check out the list below for the absolute top three must-see shorelines in the Land of Smile. However, I have no idea how to describes all of the things that you must to do in Thailand within a few of pages, so if you need more information to travel please visit: <https://www.tourismthailand.org>. Lastly, this "Land of Free" welcome to everyone, we are proud that LGBT visitors can stay anywhere in Thailand with a complete peace of mind. Our kingdom is open to every shade under the rainbow.

Ambassador Talk

My Experience as Inha International Ambassador

I am Rupesh Kandel, from Nepal, and I am currently studying my 6th semester of Doctoral degree in Chemistry and Chemical Engineering at Inha University. It's a great privilege for me to write about my experience as Inha International Ambassador for the first time. I would like to mesmerize the day when I was facing an interview for Inha Ambassadorship. I had great zeal to be appointed at any cost. I had lots of experiences related to social work before, so it obviously pushed me to participate this opportunity.

To begin, I really want to thank to Graduate School for creating this network inside campus and providing with many benefits to ambassadors. Firstly, one important point I would like to mention is that, with this ambassadorship, I felt I am also part of the administrative members of Inha Graduate School. For that reason, I am confident to mention any academic or general problems to Mrs. Yejin at Graduate School Office. Thus, an easier accessibility and a higher feeling of responsibility toward the university is felt.

Secondly, I have the opportunity to expand my network. During the Ambassadorship, I have made many friends from different countries and gotten the opportunity to know and share our culture, history, and heritage, and the time that I explore mine. I feel very comfortable talking to them

because our communication language is English. Through Ambassadorship, I have the chance to meet new people and communicate without any worry regarding language barriers.

Thirdly, how would you feel if you get some incentive for doing social work? When applying, I did not know I was going to receive a monetary bonus for it. I thought I will only participate for my own satisfaction as social worker. However, since I started, I got some small payment for my work and the opportunity to enjoy a variety of Korean food after every official and amical meeting in different restaurants. Similarly, every semester the Graduate School organized a field trip for foreign students at the university so we get a great opportunity to visit many places inside Korea without cost. An

interesting aspect is that every foreign student gets this right to participate on the field trips, but as Ambassadors we get priority when applying.

The main job I have done during my tenure is checking the applicants' forms during the application period and assisting them for apply to Inha University. I also promote our university on my home country through SNS like facebook, instagram, email etc. The most memorable thing was when each of us made one promotional video for Inha University, which we can watch in YouTube. I am sure that video will always recalling me about my precious college life. Finally, I would like to express my gratitude to Mrs. Yejin, coordinator of Graduate School, who has supported me during my studies.

Last but not least, I would like to thank to all ambassador friends who have been doing their best and enjoying our time at Inha despite our busy schedule. All of them I will keep you all in my heart forever.

By: Rupesh Kandel

Incheon

BUS TOUR

BY: JULLIANNY BATRES

When talking about Incheon, the first thing that comes to our mind maybe is the International Airport. But, did you know that Incheon is more than just the airport? It is even bigger than the capital which is Seoul. Incheon has a variety of places to discover, and during your studies at Inha University, you can manage and have spare time to take rides and visit natural spots and cultural events that you can find in this city.

For making Incheon a more attractive and accessible city for tourism, it counts with three lines of Tour Buses, which takes all around, from huge market places, cultural and traditional places, brand-new spots and the beautiful seaside of Incheon.

The Incheon City Tour Bus has three different lines: Harbor Line, City Line and Ocean Line, and it works from 10am to 6pm from Tuesday to Sunday. You can take it and the tickets only costs 10,000KRW which you can buy at Songdo and Incheon Station.

Tourist Information, with the possibility to transfer from one to other line within the day. With this program, you can get off the bus in any of the stations, hang around the area, and get in back to the next stop you want to visit.

The advantage of taking this bus is that they were able to facilitate and find the most outstanding spots of the city within one ride. Also, language is not a problem since the brochures and some of the information of the places is in English and Korean which makes the tour easier.

Looking deeper into the Ocean Line, the city tour will be starting with Songdo Central Park, a very famous park in Songdo area, known for its beautiful nature and contrasting high buildings. After going through Songdo, the next tour will be heading to Incheon International Airport, located at Yeongjong Island, which is a combination of Yongyu, Sammok and Sinbul islands by crossing through the stunning Incheon Bridge. At Yeongjong Island, the tour goes through Incheon International Airport T1 and T2, Paradise City and Inha International Medical Center, and of course it will be

stopping to two of the most visited beaches in the Island: Euwangnli and Wansan, which are very popular because of its beautiful sunsets and peaceful environment.

Incheon City Tour Buses are not the only options to hang out around the city, there are also other opportunities to look around Incheon and enjoy the culture and history of this city. Incheon also has eco tours to Cheongna city, healing and history tours to Ganghwa Island, medical tours, and sunset & night tours, all for national and international tourists like us to know more about Incheon City.

Alumni Talk

BY: WANG YUAN

In recent years, more foreign students are coming to Inha University to study and pursue their career degree. I interviewed Professor Li Shuny, who is one of the graduate students that came from China. After graduating from Inha University, she became a professor and served as the Associate Dean of the College of Education in Tonghua Normal University since December 2019.

I quote: "My name is Li Shuny and I graduated from the Department of Korean Language Education. Although it was not the first time I came to Korea, my passion for seeking knowledge drove me to continue my studies. I obtained my undergraduate and master degree in China. With my master degree in Korean Language Education, I was able to teach Korean at Tonghua Normal University. In the course of work, I felt deeply inadequate in understanding Korean language in theory, so I decided to come to Inha University in Korea to pursue my Ph.D degree at the Department of Korean Language Education. However, it was not easy to study alone in a country that I was not familiar with. Luckily, I was able to adapt when I joined a big warm family. To my professor who was not only very kind but also was there to guide us in our studies and who truly cared about our lives. My classmates were also very good to me and with them I was able to have a good life during my Ph.D study and I want to thank them for this."

When I graduated on August 2019 I felt like the three and a half years of studying was not too long. I also remembered the weather was exceptionally good that day. My family and friends came to attend my graduation ceremony to congratulate me in achieving my PhD degree. The moment I got my PhD certificate, I was even more convinced that as long as I have goals, my efforts would be rewarded.

Although I have returned home after graduation, I often miss my life in Korea. I miss my kind professors and friends who I played and learned with, and I also miss my Inha University." said Professor Li Shuny.

Alumni Talk

BY: HASAN

I am Burak Ozturk, I got my Bachelor's degree from the Department of Naval Architecture and Marine Engineering at Istanbul Technical University (ITU) in 2012. After I graduated from ITU, I decided to have master's degree in Asia, the reason why I chose Asia is because Asian countries are more developed in the field of shipbuilding industry compared to other countries. I decided to apply in Inha University because of researcher support, facilities and full tuition fee waiver scholarship. When I got full Jungseok scholarship, I joined the Production Engineering and Design Laboratory. I had a really great time in this laboratory. My laboratory mates and my supervisor Prof. Lee Jang Hyun were really helpful to me; It wouldn't be a dream come true if it was not for them.

Inha University was a good choice for my social life, thanks to the diverse culture in Inha. I worked as an Inha Student Ambassador to represent my country in 2014. By joining this team of ambassadors, I learned many things such as interacting with

different countries and backgrounds. It also helped with my business life. It was a good opportunity which was provided by the Graduate School. It is a good platform to showcase my country, to help and assist students when it comes to admission, and to provide information about the university and student life. After I have gotten my Master degree, I went back to Turkey. Because of that I didn't experience any trouble at finding a job, having this degree from Korea helped me so much in the recruitment. Currently, I am working at Caterpillar Company in Izmir Turkey.

I am thankful to the people who made my stay memorable. Especially to my laboratory friends, Dr. Se Yun Hwang and Prof. Lee Jang Hyun who helped me numerous times and made me feel like Korea was my home. Although I finish my master's and came back to Turkey, I will always remember the people who were there with me in and they will be forever in my heart.

IN HA FACILITIES FOR INTERNATIONAL STUDENTS

The most underrated “Gem”

BY: VALIJON TURAKULOV (PHD, INTERNATIONAL TRADE)

In our previous Newsletters, we have introduced many amazing facilities of Inha University, such as admission alarm function, student union, prayer and meditation rooms, on-campus medical health care center, on-campus dormitory, global dragon center, Inha official app and others for international students can enjoy.

A FACILITY THAT SAVES YOUR MONEY (MORE THAN \$200)

As a student, what we need the most is a laptop. A laptop without an operating system and writing software can be considered as television. However, an operating system and writing software are always burdensome for students whose (usually) income comes from part-time. Do not worry! You can get them for free (yes, they are FREE!) if you are an Inhanian.

Windows 10 Edu:

Please, follow the steps:

- <https://inha.onthehub.com/> (the website is not fully in English. You can use "Google Website Translator" for English)
- Register (You should register with your Inha email address: xxxxxxxx@inha.edu)
- After you log-in, search for "**Windows Edu**"
- After the result come out, please, add it to your shopping cart.
- Then, go to your shopping cart and hit the "**Check-out**" button. Do not worry, since the Windows 10 Edu key is free for you, the system will soon show you the key.
- Enter the key while you are installing the new Windows 10 OS or enter the key by clicking "**Change the product key**" in your (unlicensed) Windows 10.
- Congrats! Now you are a licensed-Windows 10 user!

Note: You should enter the key within 7 days after you "Check-out".

OFFICE 365 (WORD, POWERPOINT, EXCEL, AND OTHERS):

- Go to www.portal.inha.ac.kr,
- Log in with your ID
- Find "**office 365**" in the left bottom corner.
- Click on it.
- Now register with your Inha ID and email.
- Download the software and install it on your laptop. Enjoy!

You may get other important software for free or for a cheap price and if you want to learn more, you can explore more by visiting this website: <https://inha.onthehub.com/>

Inha Events

By: Ranjah Muhammed Tanveer Ahmed

Inha Graduate School students participated in the 2019 Field Trip by visiting the Korean Folk Village. International students coming from all over the world participated in this field trip and were able to enhance their understanding of the history and craftsmanship of the people of Korea. The folk village visit had a huge impact in the minds of the students of how disguised are the comforts of the modern world. Though things can be more accessible and faster in this day and age, people have been becoming more distant from their culture due to the advancement of technology. We should try and involve ourselves with our tradition. Embrace our culture so we could preserve it and later on, pass it onto the next generation.

Inha University is a place where students can not only have interactive fun but also learn knowledge at the same time. Inha facilitates a supportive environment for students, faculty, and staff so that they can experience fun during the ride in achieving their goals. One of the various events that were conducted in 2019 was the "Inha Music Festival". It was an amazing three-day festival that gave students a time to leave the books behind and they were able to enjoy delicious street food and music starring famous Korean singers including PSY, famous for "Gangnam Style" which has 3.5 billion YouTube views.

During the fall semester, "Cultural Representation of Multiple Countries Event" is one of the very interactive activities that were held in Inha University. Wherein, the ambassadors of Peru, Pakistan, Bangladesh, Egypt, and China were able to showcase their country and their diverse culture. This activity did not only educate students about the cultures but also they were able to share the history, ethics, norms and amazing traditions of each country.

The above mentioned activities were conducted and sponsored by Inha University. Events like these will help the international students inculcate inquisitiveness which can lead to understanding and exchanging of cultures, sharing the joy of learning, and achieving goals with the people you love.

Student Life

Almost three years ago, we enrolled in Inha University as graduate students and life has never been the same since. From a good graduate-school life experience, meeting and making new friends and also acquiring knowledge, through it all, Inha University makes student-life quite an adventure. Studying in Inha is always like a new beginning for everyone since one has to learn and re-learn how to adapt to lots of new things (people, food, places) around. As business administration students, most of our school work is taught and research based. In light of this, we can confidently say that our research skills have become a lot better than it was before.

Being in Inha University has many specs, not only is the school work fun and exciting, there are so many beautiful places in and around the university where one can visit to enjoy sightseeing and eat delicious local cuisines as well. There are lots of interesting places like the traditional village and Nami Island near Incheon where one can visit for recreational and relaxation purposes. The graduate school also has these trips they organize for all international students to places of interests that are far from the university and Inchaeon. With all the nice restaurants around the school, hanging out with friends after a long day usually means a time of eating delicious foods and having a great time together. The interesting thing to note about the restaurants around the university is that, there are both Korean and international restaurants. Talk about Indian, Vietnamese, Japanese, Chinese, etc. If you are someone who loves to cook your own dishes, the markets close to the area where the university is in, provides all the freshest ingredients you would need. The richness in food choices and quality in life makes us forget homesickness.

Inha University also provides other facilities that helps to strengthen our muscles and keep us healthy. Take for instance, the gym and sports yard for Inha students to play many types of sports including football, tennis, basketball, Even for those who prefer soft sports like badminton and such, a public badminton courts near Inha University (Figure 5) makes their wish come true. All facilities in our lovely university are for free, one does not need to worry about the financial burden.

INHA STUDENT AMBASSA DORS

Students Ambassdor who published "Inha Global Messenger" are graduated students from various countries. They represent their home countries in Inha and represent Inha in their Home countries. They play key roles to promote Inha abroad and to enrich campus international student society.

NOTICE BOARD

■ SPECIAL MESSAGES TO ALUMNI

1. If you need any certificates about your academic records at Inha University, you can access Internet Certificate Issuing System <http://certpia.inha.ac.kr> or apply for the postal service of certificate issuance. For details, visit http://eng.inha.ac.kr/mbshome/mbs/eng/subview.do?id=eng_050601000000
2. Promote 2021 GKS selection, Jungseok International Scholarship and Global Vision Scholarship Program to many excellent international students in your country.

► 2021 GKS(Global Korea Scholarship) RECOMMENDATION(UNIVERSITY TRACK)

- Number of students for 2021 GKS recommendation: Max. 20 students from Inha Univ. to NIIED.
- How to apply: Submit required documents to the graduate school office by postal mail (DHL, Fedex, etc)
- Due Date: from middle of February to beginning of March, 2020
- Scholarship Period: 1 year of Korean language learning program + 2 years for master's degree/3 years for Doctoral degree.
- Scholarship Amount: Full financial support including tuition fees and monthly allowances (KRW 900,000), etc.
- For details of GKS recommendation, visit the graduate school website(gradeng.inha.ac.kr) and check the Notices Board.
- Contact Point: jinny@inha.ac.kr, graduate@inha.ac.kr

► 2020 Fall Jungseok International Scholarship

- Application period: From middle of October
- How to apply: Submit required documents to the graduate school office by postal mail (DHL, Fedex, etc) during application period.
- Scholarship Period: 2 years for Master's degree / 3 years for Doctoral degree. (Only when students keep their CGPA on 3.75 or above)
- Scholarship Amount: 70% tuition fee waive for language level TOPIK 5~6 or TOEFL 92(IBT), 50% tuition fee waive for language level TOPIK 4 or TOEFL 78, 30% tuition fee waive for language level TOPIK 3 or TOEFL 71.

► 2020 Fall Global Vision Scholarship

- Application period: From middle of October
- How to apply: Submit required documents to the graduate school office by postal mail (DHL, Fedex, etc) during application period.
- Eligibility: Only who get recommendation from advisor can be candidates of this scholarship (Master can apply for this scholarship only by advisor less than 3 years of employment at INHA)
- Scholarship Period: 2 years for Master's degree / 3 years for Doctoral degree. (Only when students keep their CGPA on 3.75 or above)
- Scholarship Amount: 100% tuition fee waive.
